To my local federal Member of Parliament and State and Territory Senators

I am very concerned about the threat to my rights at work. I did not vote for:

- Abolishing protection from unfair dismissal
- Individual contracts that can cut pay and employment conditions
- Changing the way minimum wages are set, putting the living standards of low paid Australians at risk
- Removing awards as the safety net which underpins workplace bargaining
- Reducing the right of workers to bargain collectively and be represented by a union
- Taking away powers of the Industrial Relations Commission

These changes will greatly affect my standard of living, my family and ultimately damage the Australian way of life.

I ask that you represent the interest of your constituents by opposing the Howard Federal Government's changes to workplace laws.
